

Expert consultation

Our pharmacy experts will be there to guide you through every step of the process, from planning and design to installation.

A perfect solution

From configuration options to quality materials, we have the solution you need.

Helping you gain control of your pharmacy.

Sharing years of industry-leading medication management expertise, our Lionville pharmacy fixtures offer turnkey pharmacy storage solutions that are specifically designed for every area of your pharmacy. Lionville pharmacy fixtures meet your storage needs and maximize efficiency for unit dose, order entry, sterile prep, and many other important areas throughout your facility. In addition, our planning consultants offer design expertise and a full understanding of how to make your pharmacy's workflow run more efficiently.

Built for your needs

We analyze your pharmacy workflow requirements in order to ensure efficiency.

Expertly installed

Our professionals will be there until the fitting of the final shelf, guaranteeing a smooth installation and an attractive final product.

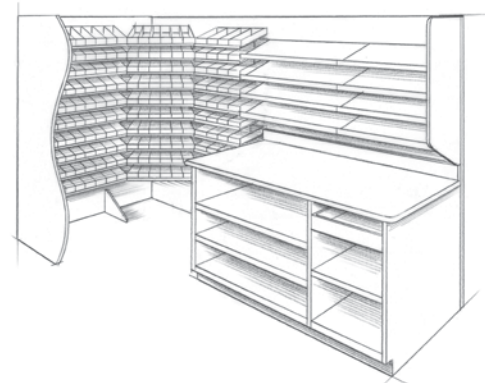

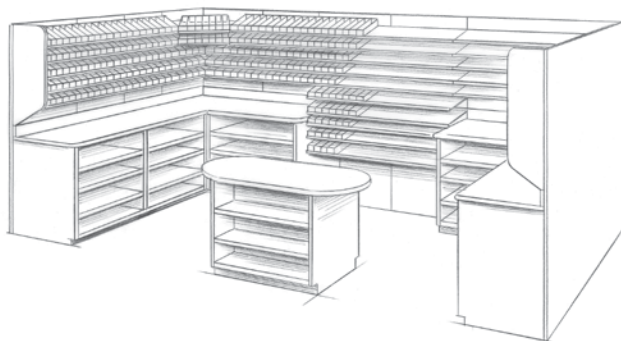

Adaptive Picking

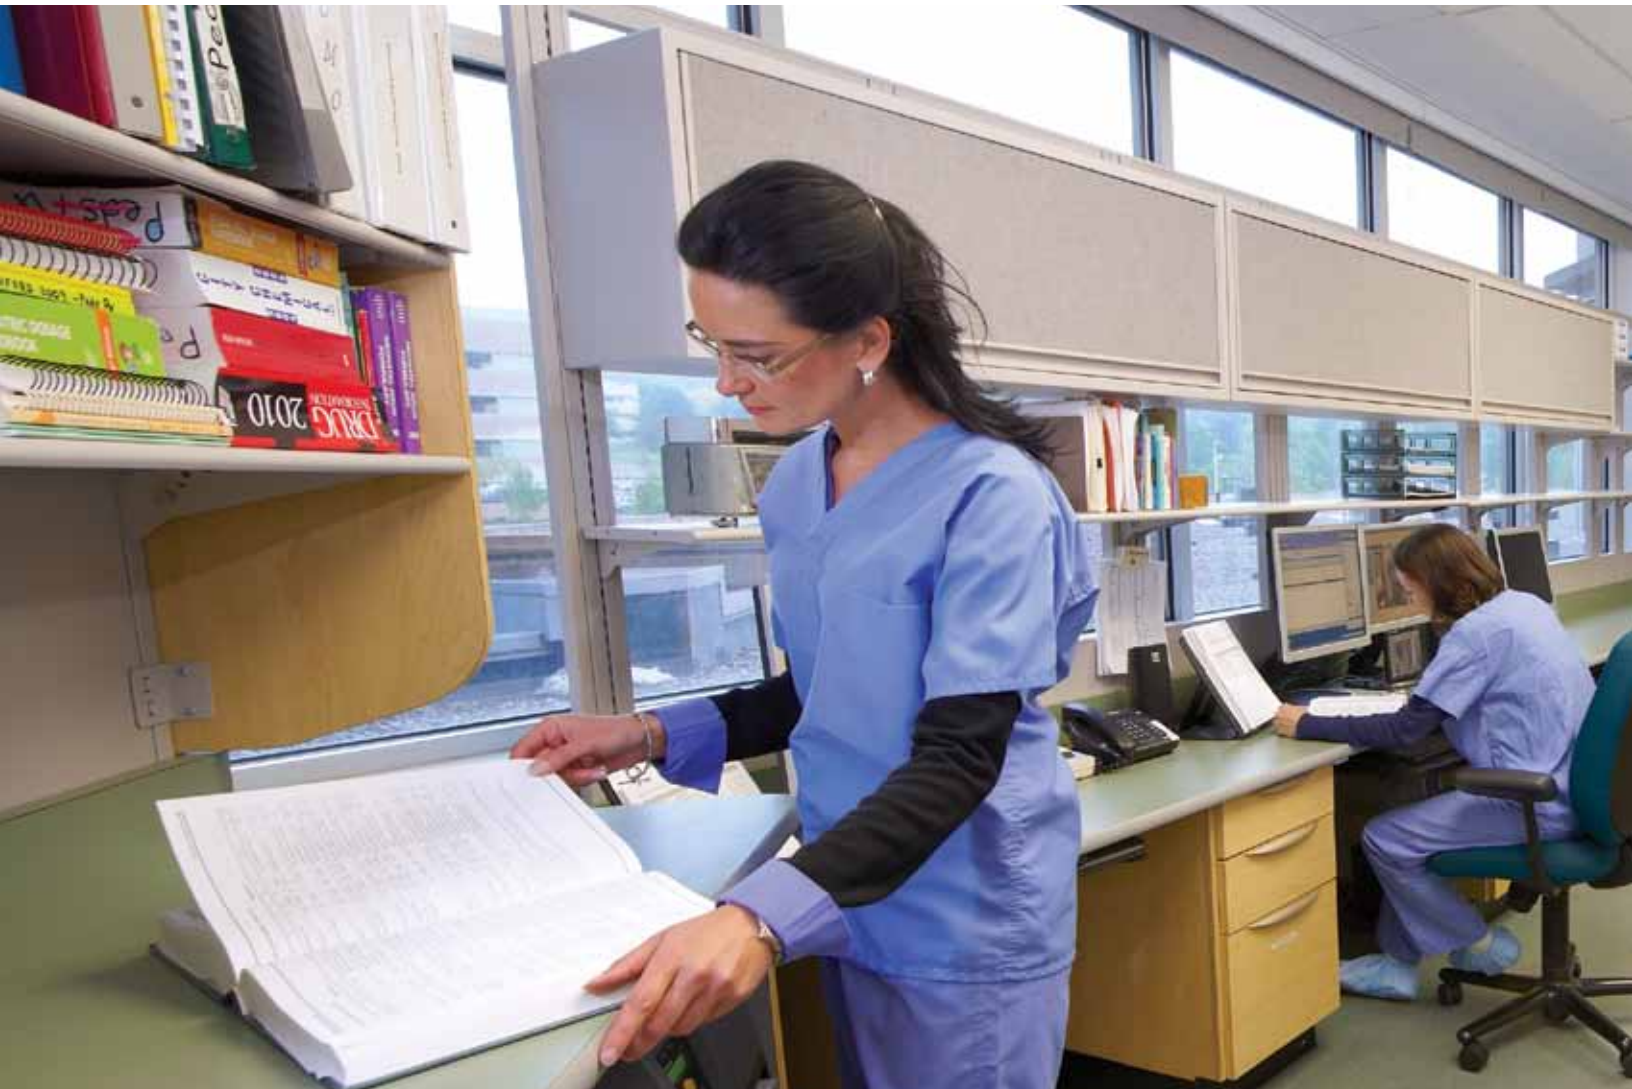

The picking station is the most dynamic area of the pharmacy. As your needs change, the Lionville pharmacy fixtures change with you. Our work stations can be easily reconfigured on-site to accommodate any distribution method, including unit dose distribution, decentralized automatic dispensing systems, centralized robotic filling or any future distribution technology.

At the picking station, drawers can be customized for a variety of supplies using durable, configurable dividers. The drawers are also designed to pull out entirely, making supplies in the rear easy-to-access and reconfiguring your workstation simple.

Every picking station is site specific, allowing each facility to design for its own unique requirements.

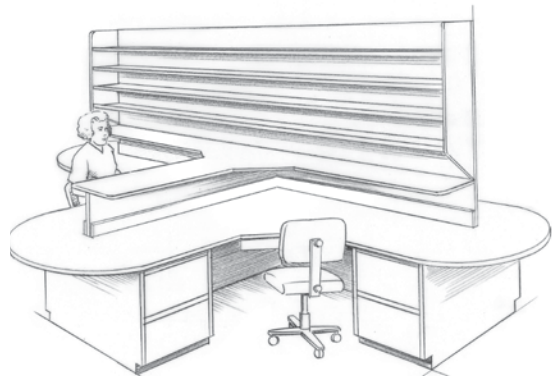

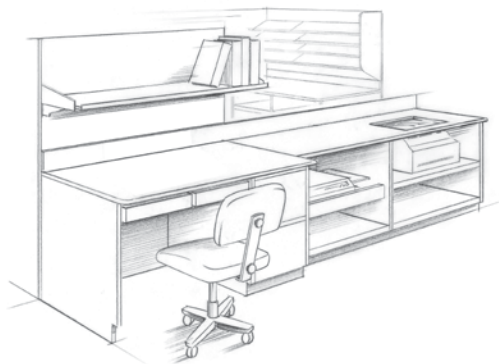

Seamless Order Entry

Our order entry and computer workstation designs increase functionality by providing integrated, user-friendly workstations that limit clutter and improve organization, so technicians can work more efficiently. We are constantly developing innovative solutions for this area of the pharmacy to improve overall workflow and productivity.

Configured to adapt to your specific needs, we can seamlessly build in additional elements to improve workflow and overall efficiency. A sink, extra order entry station, or an additional open work space are just a few of the adaptations our experts can make to customize your pharmacy design.

Designed to increase efficiency by integrating your hardware into user-friendly and uncluttered workstations

Specialized Support

Our Lionville pharmacy fixtures can be specialized to support all operations where proper design is critical for maximum efficiency throughout the pharmacy. Our flexible, modular casework will allow for future upgrades and enhancements in areas such as clean rooms, narcotic control and even bulk storage.

We are able to provide all levels of sterile preparation in areas that are consistent with USP 797 requirements. Our experience in hospital pharmacy design and state-of-the-art cleanroom technology results in practical, flexible designs that work.

Lionville pharmacy fixtures are created from the ground up to deliver

Contoured front edges on all shelves. The over counter shelves have integrated brackets that allow the shelf to be placed in two gravity feed positions or flat.

All shelves have a flat retainer that slips into the front slot.

Fully slotted back panels maximize adjustability. Decorative tubing can be added to give a finished look.

deliver flexibility, easy configuration, exceptional strength and durability.

Designed with precision, the components are not only efficient, but also create a “built-in” attractive work environment. From the designer drawer pulls to the many laminate choices for wood components, our staff will help you select the combination that fits you best.

Easy exchange, easy clean drawer totes drop into drawer frames. Adjustable dividers keep supplies organized and easily identified.

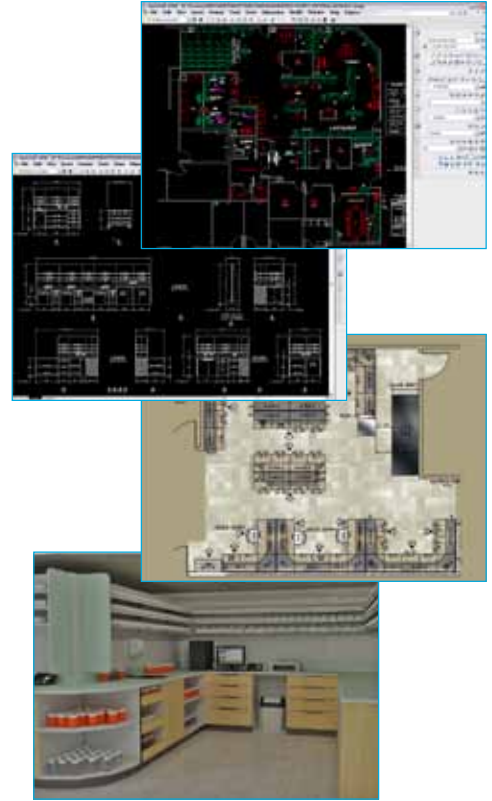

SEK Solutions® value-added solutions:

STORAGE AND SPACE ANALYSIS:

We will provide you with a comprehensive storage and space analysis. We'll make recommendations on how to maximize your available space. Best of all, this analysis is absolutely free.

QUOTES:

In addition to working with your available space, we also work with your budget. We'll provide you with quotes for the most cost-effective solution.
