

NSN WEAPON STORAGE CATALOG

CAGE: 3BSY8 DUNS: 021533653

FEATURES

LOCK RODS

All SEKURE lock rods are concealed behind the steel door, eliminating any chance of manipulation from an outside force.

WELDED EYELETS

All SEKURE Storage lockers come standard with four welded internal eyelets to allow for security cables or chains to be run throughout the locker for added safety and reinforcement.

RECESSED SIDE LIFT HANDLES

All SEKURE Storage lockers come standard with built-in, recessed lift handles to allow cabinets to be moved, loaded, and unloaded with ease. Hands can comfortably fit inside these unbreakable handles.

TOLERANCE

SEKURE Storage racks have a very low tolerance between the doors and the frame of the rack, making it very difficult to break in with simple tools.

REINFORCED BACK PANELS

The reinforced back panels in all SEKURE Storage lockers add structural stability and prevent heavy loads from bowing the back panels. Each reinforced panel comes with mounting templates for easy installation.

WELDED HANDLES

SEKURE Storage bi-folding lockers come standard with welded and riveted handles for ease of entry.

RACK COMPONENTS

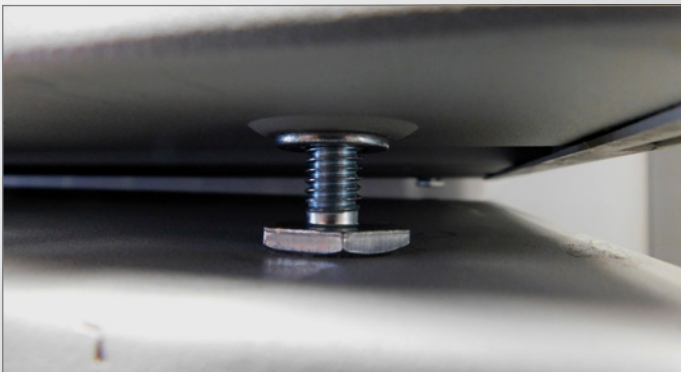

LOCKING MECHANISM

SEKURE Storage fully encloses its locking mechanism to prevent damage and manipulation while the door is open.

DOOR HINGES

SEKURE Storage door hinges are made of one continuous hinge and are fully concealed. This eliminates any chance of breach with simple tools, thus keeping the contents of the locker secure at all times.

LEVELING FEET

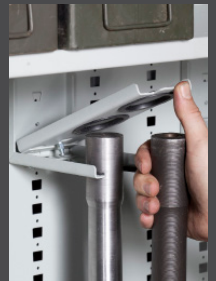

SEKURE cabinets stay level and steady with the help of built-in leveling feet.

Retractable Door

NSN # 1095-01-646-1143
Crew Served (M2)
Storage Cabinet - 84" x 42"
3 Receiver/6 Barrel Capacity
Upper Ammo/Storage Shelves
Bi-Fold Doors

MACHINE GUN CABINETS

NSN # 1095-01-646-1157
Machine Gun Cabinet - 84" x 36"
10 M240/M249 Storage Capacity
2 Spare Barrels per Weapon
Bi-Fold Door

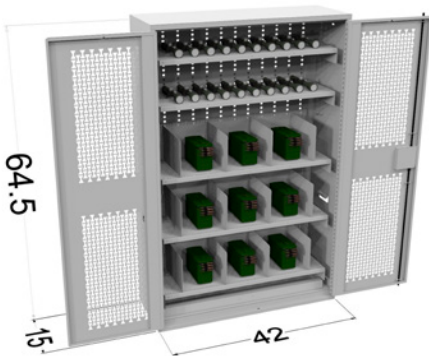

NSN # 1095-01-646-1159
Machine Gun Cabinet - 84" x 42"
12 M240/M249 Storage Capacity
2 Spare Barrels per Weapon
Bi-Fold Door

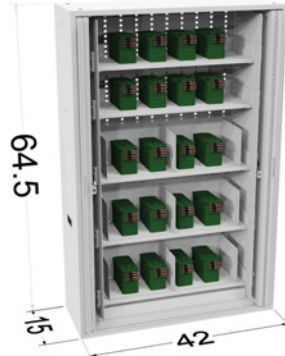

NSN # 1095-01-646-1236
Machine Gun Cabinet - 64.5" x 42"
10 M249 Storage Capacity
2 Spare Barrels per Weapon
Retractable Door

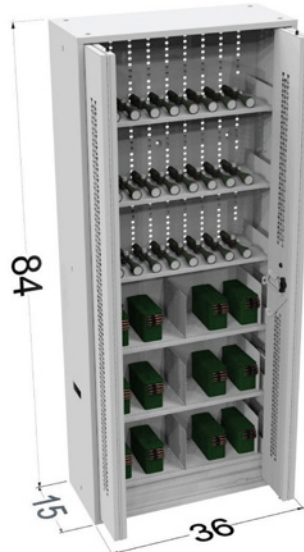

GEAR STORAGE

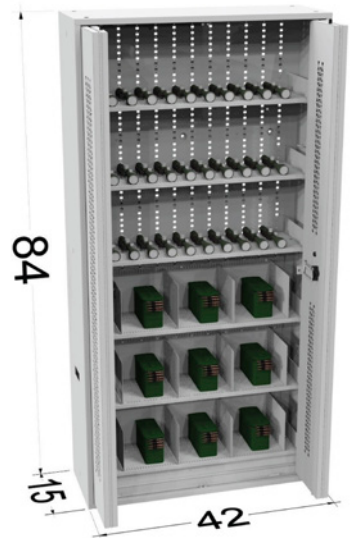

NSN # 1095-01-646-1247
Gear Storage Cabinet - 64.5" x 42"
Bins for Optics/NVGs Storage Shelves
Hinged Door

NSN # 1095-01-646-1257
Gear Storage Cabinet - 64.5" x 42"
Bins for Optics/NVGs Storage Shelves
Retractable Door

NSN # 1095-01-646-1161
Gear Storage Cabinet - 84" x 36"
Bins for Optics/NVGs Storage Shelves
Bi-Fold Door

NSN # 1095-01-646-1167
Gear Storage Cabinet - 84" x 42"
Bins for Optics/NVGs Storage Shelves
Bi-Fold Door

SPECIFICATIONS FOR SEKURE STORAGE RACKS

- All SEKURE racks and components have a Lifetime Warranty
- Most racks are available in 36" or 42" width with heights of 48", 64.5", 72" and 84"
- All racks have 7-point lock mechanism standard. A 10-point lock mechanism is optional
- All racks are constructed of 16-gauge steel with a reinforced base
- All racks feature a 16-gauge back panel reinforced with steel stiffeners to add rigidity
- All back panels permit mounting weapons in a vertical or horizontal position
- All bi-fold and retractable doors slide in 16-gauge steel channels at top and bottom
- All racks have an adjustable inner base with padded rifle stock support
- All racks have left and right recessed side handles
- All racks have internal welded eyelets for attachment of gun cables or security chains
- All racks feature pre-drilled holes in the top, bottom, back, and sides to permit secure stacking or mounting in back-to-back, side-to-side, top-to-bottom configurations
- All racks feature corner leveling pads that are easily adjusted using common tools

SPECIFICATIONS FOR SEKURE STORAGE RACK COMPONENTS

- All rack mounting components are made from sturdy 14-gauge cold rolled steel and have no plastic or nylon parts
- All weapon or gear storage components have a minimum of two tapered anchoring tabs to ensure a secure engagement into the reinforced universal back panel
- All weapon storage components are individually adjustable and allow for storage of multiple weapon types in a single rack
- All components feature oil-resistant rubber pads at every critical weapon contact point
- All components have pin retention devices as well as pre-drilled holes to provide multiple options for securing to the reinforced back panel
- All full-width gear storage shelf components have a 900lb capacity
- All bases, shelves, and weapon stock supports feature a 1/8" oil resistant rubber matting
